

MOSQUITO SEARCH REPORT

Last name:

First name:

Team name:

1. Pick the 4 places in the list below that are, according to you, the most likely to be infested with mosquitoes.

2. After the exploration of the selected zones and the opening of the mosquito traps, fill in the table below with the number of mosquitoes you found, then sum them up to get the total.

The team that has found the largest number of infected mosquitoes will be the winner! If it's a draw, the number of infected mosquitoes found will determine the winner team!
